Blind Features

Key Features of Our Blinds

- Welded tubular steel platform for strength and longevity (fully assembled)
- Platform sides and roof made from reinforced rubber roofing material for quietness, extreme weather resistance, and durability
- Treated plywood floors for additional strength
- Insulated roof to help retain heat
- Made in the USA
- 360° viewing from quiet, drop-down acrylic windows in powder-coated frames

Additional Tower Blind Features

- Removable 1-piece welded ladder powder-coated for durability
- 8 diagonal braces for incredible stability and support
- 10" leg pad to keep blind from sinking into the ground
- Leg stakes and center anchor stakes for securing blind into place
- 15' and 18' heights measured to floor of blind
- Large 29" grab bar for easy entry and exit

Additional Ground Blind Features

- 4 adjustable 10" legs and T-screws for leveling ground blind on uneven terrain
- Oversized door (4' x 6') for easy entry and exit
- Disability Blind includes lightweight tri-fold aluminum wheelchair ramp with carrying handle
- Optional travel kit for easy movement around hunting property with 4-wheeler or truck
 - Powder-coated trailer hitch
 - Powder-coated heavy duty axle with "No-Flat" 15.5" wheels

Ground Blinds

(Shown with Optional Travel Kit)
